

It is a new and different situation, not only for us, but for the whole world.

We work hard to comply in every way with the recommendations of our authorities and keep us up to date.

Of course, we follow the recommendations of the Swedish authorities, the Swedish Tourist Association and Destination Sälen in order to act and make the necessary decisions.

In the midst of all this, it is after all positive to stay outdoors and that is the core of our business. We are confident that movement and an active lifestyle will continue to be important after Corona, most likely even more important than it has been in the past.

Since it is difficult to plan in the current situation, we will have limited activities during the coming off-season. The accommodation booking for the summer is open and we have prepared precautionary measures for the business based on government regulations and general advice. Among other things, we have reduced the number of rooms for rent to reduce congestion.
